HARSH CONDITIONS, PAVEMENT, MUD OR ROCKS

Trusted by the pros to take on the harshest conditions, the tough WILDPEAK M/T is built to get you there and back whether you're on the pavement, mud or rocks. The M/T features Falken's proprietary three-ply DURASPEC™ Sidewall Technology developed To sustain the most punishing off-road conditions.

DURASPEC™ also features two high ply turn-ups that provide an additional layer of protection and durability. An aggressive upper sidewall provides additional traction at low air pressures on rugged terrain.

The WILDPEAK M/T also features exceptional road manners thanks to an optimised variable three-pitch tread pattern and precision manufacturing technology.

FEATURES

ADVANCED OFF-ROAD HANDLING

Rugged and rigid tread blocks feature step-down supports on the center blocks to provide tread-pattern rigidity in the contact patch, enhancing stability and handling while preventing stones from becoming trapped in the grooves.

RUGGED OFF-ROAD PROTECTION

Aggressive upper sidewall along with offset shoulder blocks protect the tyre from sharp rocks and provide additional off-road traction at low tyre pressures or in off-camber situations.

MUD AND ROCK DEFENSE FEATURES

Mud and rock defence features shed mud from the tread grooves to prevent loss of traction, ensuring maximum grip while preventing rocks from puncturing the base of the tread.

QUIET COMFORTABLE RIDE

Optimized tread pattern with three variable pitches positions the tread blocks to provide an exceptionally quiet ride.

DURASPEC™ THREE PLY SIDEWALL

Falken's proprietary technology was developed to endure the most punishing off-road conditions. DURASPEC also features two high ply turn-ups that provide an additional layer of protection.

HEAT DIFFUSER TECHNOLOGY

Heat diffusers in the lower sidewall dissipate heat to protect the internal tyre components. Keeping this critical area of the tyre cool ensures vehicle stability even when towing or carrying heavy loads.
