

Goodyear SUV and 4x4 Tyre Line-up

On/Off-Road Tyres

Wrangler AT/SA

The on/off-road tyre featuring SilentArmor Technology

The Wrangler AT/SA from Goodyear featuring SilentArmor Technology allows you to drive with confidence on rough roads, thanks to the durability of two

layers made with DuPont™ Kevlar®, a material stronger than steel, and Durawall™ sidewall reinforcement that enhances cut resistance in the sidewalls.

Enjoy the smooth, quiet ride that comes from the layers made with DuPont™ Kevlar® which help to absorb road noise.

With Wrangler AT/SA, you just go where you want, under any road conditions.

Features and benefits

Feature

SilentArmor Technology

Action

- Two high-tensile steel belts and two layers made with DuPont™ Kevlar®, which is a material five times stronger than steel
- DuraWall™ sidewall reinforcement
- Reduced noise with optimised block sequence and shifting

Benefit

- Improves tyre resistance to punctures in the tread
- Reduces noise for a smooth and quiet ride
- Improves tyre resistance to punctures and cuts in the sidewall
- Quiet and comfortable ride

Deep staggered shoulder notches and traction ridges

Increased mud evacuation

Improves off-road traction in mud

High blade density tread

Additional biting edges in radial and longitudinal direction

Better grip on wet

Optimised polymer blend

- High cut resistance in tread and good interaction on wet surface
- Low polycyclic aromatic oil content

- Optimised wet grip and mileage with good off-road performance
- Friendly to the environment
