

Goodyear SUV and 4x4 Tyre Line-up

Off-Road Tyres

Wrangler MT/R with Kevlar

Dedicated to off-road driving

The Goodyear Wrangler MT/R was specifically designed to cope with the toughest terrain your vehicle will ever encounter. The unique asymmetrical tread design offers aggressive off-road traction. The wraparound tread makes quick work of deep mud, sand and rocks.

The sidewall is reinforced with DuPont™ Kevlar® and the advanced silica rubber compound offers superb off-road and wet traction.

The MT/R (the Revolutionary Off-Road Tyre) is one of South Africa’s most distinctive tyres. The aggressive, eye-catching tread pattern and Kevlar-reinforced sidewall will help you fight through the toughest terrains.

Features and benefits

Feature	Action	Benefit
DuPont™ Kevlar® reinforced sidewalls	Increase sidewall puncture resistance	35% less chance of a flat tyre
Hardworking wraparound tread	Enhances sidewall traction	Better performance in deep mud, sand and rocks
Innovative asymmetric tread design	Contact patch adapts terrain	Offers aggressive off-road traction while maintaining enhanced handling on the road
Advanced silica rubber	Low polycyclic aromatic oil content	For superb off-road and wet traction
