ZIEX ZE310 ECORUN

THE LATEST IN HIGH PERFORMANCE

- ✓ Excellent traction & grip on wet & dry roads.
- ✓ Enhanced resistance against aquaplaning.
- ✓ Shorter braking distances.
- ✓ Improved wear life.
- ✓ Further improved noise reduction.

RANKS AMONG THE BEST

ZIEX ZE310 R Ecorun

VARIABLE HIGH PERFORMANCE PROFILE

ACP "ADAPTIVE CONSTANT PRESSURE" TREAD DESIGN

THE LATEST IN RESEARCH AND DEVELOPMENT

FEATURES & BENEFITS

PRODUCT FEATURE:

- 3-groove design for 195 mm width tyres and smaller
- 4-groove design for 205 mm width tyres and larger

FUNCTION:

- Enhanced profile stiffness and increased tyre footprint
- Improved water evacuation

BENEFIT:

- Improved wet performance to avoid aquaplaning
- Increased traction steering response

PRODUCT FEATURE:

- Intelligently designed tread pattern that adapts to all situations in order to maximise surface area

FUNCTION:

- Consistent expanded contact area for increased adhesion

BENEFIT:

- High levels of directional stability, enhanced all-round grip, with the added benefit of even wear

PRODUCT FEATURE:

- Forward-looking research and simulation program

FUNCTION:

- Nano-scale compound optimisation

BENEFIT:

- Excellent traction and grip on wet and dry roads with improved wear life

Width ≤ 195
3-Groove design

Width ≥ 205
4-Groove design

The ZieX ZE310 Ecorun is a cutting-edge tyre, designed using the **ADVANCED 4D-NANO TECHNOLOGY** to improve wear life.

(ACP) PATTERN DESIGN provides enhanced tyre tread to road surface pressure distribution, improving both directional stability and vehicle-stopping distances.

TENSION CONTROL TECHNOLOGY is a proprietary casing mold shape that provides a more flexible middle sidewall area to absorb shock while providing enhanced handling capability via the rigid outside shoulder tread and bead area of the sidewall.
